

# The Watchmen

## Content

### **The Watchmen by Brian Freemantle.**

...

Only a miracle-and faulty workmanship-prevents a germ-packed warhead from exploding when a terrorist missile slams into the United Nations building in New York. The lettering on the side of the rocket is Russian, which presents the West with its worst nightmare: a direct link between a fanatical U. S. terrorist group and Russian gangsters with access to the germ warfare arsenal of the former Soviet Union.

This potentially devastating attack reunites the FBI's Russian expert William Cowley and Moscow's Organized Crime Director Dimitri Danilov. Their task: to penetrate and destroy the unknown group claiming responsibility before they can strike again.

And as the Superpowers teeter on the brink of diplomatic meltdown, Cowley and Danilov make another nightmare discovery. The terrorists are being cleverly financed by ultra-sophisticated hackers looting U. S. banks, breaking into law enforcement and Pentagon computers, and keeping themselves always one click ahead of the frantic pursuit.

*The Watchmen* is a spine-chilling chase that strikes at the heart of our fears of terrorism and its prevention.
